# Chris Heredia Naranjo

Barcelona, Spain · [linkedin.com/in/christian/](linkedin.com/in/christian/) · c.heredia.naranjo@gmail.com

*I'm a software engineer with expertise in frontend development (Angular) and full-stack integration. I've led teams on large-scale projects, delivering high-performance platforms in the tech and tourism industries. I focus on creating scalable solutions, optimizing code quality, and driving agile practices to enhance team productivity and deliver impactful results.*

## PROFESSIONAL EXPERIENCE

**Dimatica Software**                                                                 **Barcelona, Spain**
Lead Frontend Engineer                                                                 *May 2022 – Current*

- Led the end-to-end development of a comprehensive platform for a B2B and B2C business, specializing in the sale of tourism accommodations, from the ground up.
- Designed and implemented a highly scalable, micro frontend architecture using NX and Angular 17, ensuring modularity, performance, and maintainability across various components and teams.
- Developed a robust and fully integrated testing strategy using Jest and Cypress to ensure top-tier reliability, performance, and quality for all aspects of the platform.
- Created reusable UI components and standardized design patterns using Storybook to streamline development and improve collaboration between design and engineering teams.

**Obsidian Software**                                                                 **Coruña, Spain**
Senior Frontend Engineer & Scrum master                                               *Jan 2020 – Dec 2022*

- Led the development of an external tool to monitor and measure, in real time (with a 1-minute delay), the status of servers and other resources.
- Worked with a distributed and agile team, taking leadership in a project with an international scope, ensuring smooth collaboration and timely delivery.

**Deloitte & NTT Data**                                                               **Barcelona, Spain**
Frontend Engineer                                                                     *Jan 2017 – Aug 2019*

- Contributed as a frontend expert in a large-scale B2B project focused on health insurance, collaborating with an internationally distributed team to build scalable solutions.

**Pricesoft & internship**                                                            **Barcelona, Spain**
Trainee Engineer                                                                      *Sept 2013 – Oct 2016*

- Collaborated with cross-functional teams to deliver custom features that met clients' business needs.

## EDUCATION

**UNIVERSITY RAMON LULL**                                                             **Barcelona, Spain**
Master of agile methodologies                                                         *Sept 2017 - May 2018*

**UNIVERSITY POMPEU FABRA**                                                           **Barcelona, Spain**
Telematics Engineering degree                                                         *Sept 2011 - May 2016*
